The alphabetical arrangement of the subject matter is modified in some instances by the grouping of related topics under such headings as Agriculture, Coal, Congress, Education, Elections, Finance, Genoa Conference, Industry, Irish Free State, Radio, Railroads, Ship Subsidy, and United States. Letters in parentheses signify nature of article, as (C) contributed article; (Ed.) editorial; (L) "leading article" (digested from another source); (il.) illustrated; (R) book review.
